

Software Developer Resume

Name: Tony Stark

Phone: +91 6789054321

Email: tonystark@gmail.com

LinkedIn: *linkedin.com/in/ tonystark*

Location: Chennai, India

□ Professional Summary

Result-driven Software Developer with 7 years of experience in building scalable web applications and backend systems using **Next.js**, **React**, **Node.js**, **MongoDB**, and **MySQL**. Adept at collaborating with cross-functional teams, optimizing performance, and delivering robust, user-friendly solutions. Strong advocate for clean code practices, Agile development, and continuous learning.

□ Technical Skills

- **Frontend:** Next.js, React.js, JavaScript (ES6+), HTML5, CSS3, TailwindCSS
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, MySQL
- **Version Control:** Git, GitHub, GitLab
- **DevOps Basics:** Docker, CI/CD pipelines (optional if you know)
- **Others:** REST APIs, JWT Authentication, Server-Side Rendering (SSR), MVC Architecture

□ Professional Experience

Senior Software Developer

TCS | Chennai, India

Jan/2023 – **Present**

- Designed and developed full-stack web applications using **Next.js** and **Node.js**, improving page load time by 30%.
- Built and managed RESTful APIs and integrated third-party services seamlessly.
- Led database schema design and optimization for **MongoDB** and **MySQL**, reducing query latency by 20%.
- Migrated a large-scale React application to Next.js with SSR and dynamic routing, boosting SEO performance.
- Mentored junior developers on Git best practices, code reviews, and modular coding.

Key Achievements:

- Developed a scalable CMS platform handling 1M+ monthly users.
- Reduced deployment time by automating build pipelines using GitHub Actions.

Software Developer

ITC Soft Tech | Pune

April/2020 – Dec/2022

- Built feature-rich React-based dashboards integrated with Node.js backends.
- Implemented authentication and authorization workflows using JWT and OAuth.
- Integrated MongoDB aggregation pipelines for complex data reporting features.
- Worked closely with UI/UX teams to implement responsive, pixel-perfect designs.

Key Achievements:

- Improved application performance by optimizing API endpoints and React state management.
- Spearheaded Git branching strategies, improving development workflow efficiency.

Junior Software Developer

ASD Tech | Bangalore

Feb/2018 – April/2020

- Assisted in backend API development and MongoDB schema design.
- Contributed to frontend modules in React and minor server-side rendering tasks with Next.js.
- Collaborated in Agile sprints and participated in daily standups and retrospectives.

□ Education

Bachelor of Technology (B.Tech) in Computer Science

Anna University | Chennai

2017

□ Certifications

- React JS Certification – [Platform] (Coursera, Udemy, etc.)
- Node.js Developer Certification – [Platform]

□ Projects

Project: E-Commerce Platform

- Built a complete e-commerce site with **Next.js**, **Node.js**, **MongoDB**, and **MySQL**.
- Implemented cart, checkout, payment integrations, and user authentication.
- Features: Admin dashboard, product management, order tracking.
